More Security Innovation from Lock America!

**A cost-effective way to upgrade your Flat Swing Doors.
Don't replace your doors, just upgrade your hasps and select your locks.**

- **Tamper-proof hasp.**
- **Usable with all standard cylinders, disks and padlocks.**
- **Built to Lock America's security standards.**

Here's what our customers say:

I decided to upgrade my locks because of what I saw in the industry—too much funny business going on. I had difficulty finding security. . . I dealt with many locksmiths and they just did not get it. I even did research on the Internet until I found Lock America at a vendor show. Peace at last."
